September 2023
FOI_6129

The following information was requested on 16 August 2023:

Please could you provide the following information for the following years 2018/19, 2019/20, 2020/21, 2021/22, 2022/23:

The total number of claims, both made and settled, by NHS Trust in England

The gender identity of those making the claims, both made and settled, by NHS Trusts in England

The CQC rating of each NHS Trust in England

The total number of claims and total amount paid by speciality and by gender:

Obstetrics

Emergency medicine

Orthopaedic surgery

General surgery

Gynaecology

General medicine

Radiology

Psychiatry/mental health

Ophthalmology

Gastroenterology

Other

The total number of claims and total amount paid, split by specific Women's health services outlined) by NHS Trust

Maternity

Gynaecology

Neonatology

The total number of claims and total amount paid, split by specific Women's health services outlined) by NHS Trust where insufficient midwifery or obstetrician staff was a significant causal factor:

Maternity

Gynaecology

Neonatology

Our Response

We do not hold the CQC rating, this will be available directly from the individual Trusts or from the CQC.

Please find attached the requested information we are able to provide.

Please note: We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to <https://resolution.nhs.uk/resources/understanding-nhs-resolution-data>.

Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of clinical negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle and close. They are not guaranteed to be settled and closed in the same year. As such, there will be a time gap between incident and claim closure.

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case has been closed (as unsuccessful), challenged, reopened and closed again at conclusion.

Please also note that the data shows a variation in the number of claims received and resolved during this period. This is a reflection of the nature of individual claims handled by NHS Resolution, which can vary significantly. As such, these fluctuations cannot be interpreted as trends.

The data shows variation in numbers of cases closed per year and costs attributed to those claims. This is a reflection of the nature of individual claims received and resolved by NHS Resolution, which can vary significantly. As such, these fluctuations cannot be interpreted as trends.

For clarity, as you have requested data specifically relating to trusts and clinical disciplines we have provided data in relation to CNST claims only.

Table 1 shows: - Number of CNST Claims or Incidents received between the financial years 2018/19 and 2022/23 broken down by Member Trust (with 5 or more claims) and by sex.

Table 2 shows: - Number of CNST Claims Closed (or settled as a PPO) between the financial years 2018/19 and 2022/23 with damages paid (including PPOs paid to date) broken down by Member Trust (with 5 or more claims) and sex.

Table 3 shows: - Number and Cost of CNST Claims Closed (or settled as a PPO) between the financial years 2018/19 and 2022/23 with damages paid (including PPOs paid to date) where the Specialty is "Obstetrics", "Emergency medicine", "Orthopaedic

surgery", "General surgery", "Gynaecology", "General medicine", "Radiology", "Psychiatry/mental health", "Ophthalmology", "Gastroenterology" or other, broken down by Speciality and sex.

For clarity, the data shows claims arising out of obstetrics where the claimants are males. This is appropriate as, for example, a male child may bring a claim arising from injury sustained during obstetric care provided at the time of his birth.

Table 4 shows: - Number and Cost of CNST Claims Closed (or settled as a PPO) between the financial years 2018/19 and 2022/23 with damages paid (including PPOs paid to date) where the Specialty is "Obstetrics", "Gynaecology" and "Neonatology", broken down by Member Trust (with 5 or more claims) or speciality.

PPOs

The information disclosed includes damages paid out in the relevant period under Periodical payment orders (PPO) previously agreed on cases, which may have been resolved several years ago. It does not include sums, which have been committed on settlements in the relevant period under a PPO, which may not be paid out until future years. PPOs are an agreement between the parties, to pay an initial lump sum and regular future payments covering the injured party's ongoing care needs, usually for life i.e., a percentage of the full value of the claim is paid at the point of settlement with the balance paid at regular intervals over subsequent years.

Low figures

We have not provided the information for low figures involved or the names of Trusts with fewer than 5 claims, as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A)(a) of the FOI Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information and any disclosure would therefore contravene the first data protection principle.

In some instances, the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced a number of [reports](#) from analysing our claims data, which has been shared following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

Please refer to [Understanding NHS Resolution data](#) guidance for further details on how our Claims database is categorised.

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Tinku Mitra](#), Deputy Director of Corporate and Information Governance, Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF
