FOI_6472

The following information was requested on 25 March 2024 and clarified on 19 April 2024:

Follow up to: FOI_6128_Top-25-highest-paid-claimant-firms.pdf (resolution.nhs.uk)

[On 25 March 2024 you requested]
We wish to make a request in accordance with the Freedom of Information Act 2000.

We are seeking information in respect of the last 4 years relating to the top 25 claimant law firms undertaking clinical negligence claims against NHSR. We understand that some of this information was provided within the response to the request (FOI_6128) dated 16th August 2023, however we require more detailed clarification of some of the information previously provided together with additional information.

We would therefore be grateful if you would specifically provide information relating to the top 25 claimant law firms by volume of claims submitted in relation to the following:

• the number of claims in value across the value bandings £0-5,000, £5,000-£25,000, £25,000-£50,000, £50,000- £100,000, £100,000-£500,000, £500,000 -£1,000,000, £1,000,000 upwards;
• the total damages paid in accordance with the above value bandings;
• average profit costs per case in accordance with the value bandings;
• the percentage/rate of cases litigated in accordance with the value bandings;
• claimant firm costs (global costs inclusive of disbursements and VAT) relating to the value bandings;
• details of the share of volume represented;
• details of the share of damages; and
• details of the share of costs.

Please do contact the writer if you have any queries at all relating to our request.

[On 27 March 2024 we advised]
Thank you for your request for information. Please can you clarify the following in respect of your request:

We do not hold the following information:

- *average profit costs per case in accordance with the value bandings;*

In terms of the following parts of your request, please can you clarify what you mean by:

• details of the share of volume represented;
• details of the share of damages; and
• details of the share of costs.
It is not clear to us what is being requested in this part of the request.

Your request will be put on hold until we receive the clarification requested above.

We look forward to hearing from you.

[On 19 April 2024 you replied]
Thank you for your email. My apologies for my delayed reply.

With regards to the request and the clarification you seek, we would be grateful if you would confirm the percentage share and number of claims in the value bandings being dealt with by each of the top 25 firms, the amount of damages in total awarded in the value bandings being dealt with by each of the top 25 firms and the total amount of costs recovered by the top 25 law firms in the various value bandings.

I understand that you do not hold information relating to average profit costs per case in accordance with the value bandings, however I would be grateful if you would confirm the average total costs in accordance with the value bandings (this can include profit costs and disbursements).

Our Response

Please find attached the requested information.

Please note: We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to https://resolution.nhs.uk/resources/understanding-nhs-resolution-data.

Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle and close. They are not guaranteed to be settled and closed in the same year. As such, there will be a time gap between incident and claim closure.

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case has been closed (as nil damages payment), challenged, reopened and closed again at conclusion.

Table 1 shows: - Number (broken down by damages paid tranche (excluding any claims with NIL damages)) and Cost of Clinical Claims Closed (or settled as a PPO) between the financial years 2019/20 to 2022/23 ranked by the top 25 claimant firms by volume of claims closed (or settled as a PPO). The data includes the damages and legal costs paid up until the end of each financial year of closure, or for PPO matters, year of settlement.

Table 2 shows: - The number of litigated cases (broken down by damages paid tranche (excluding any claims with NIL damages)) of Clinical Claims closed (or settled as a PPO) between the financial years 2019/20 to 2022/23, ranked by the top 25 claimant firms by volume of claims closed (or Settled as a PPO)

Table 3 shows: - The average costs (broken down by damages paid tranche (excluding any claims with NIL damages)) of Clinical Claims Closed (or settled as a PPO) between the financial years 2019/20 to 2022/23, for the top 25 claimant firms by volume of claims closed (or settled as a PPO). The data includes the average damages and legal costs paid up until the end of each financial year of closure, or for PPO matters, year of settlement.

Table 4 shows: - The percentage share (broken down by damages paid tranche (excluding any claims with NIL damages)) of Clinical Claims Closed (or settled as a PPO) between the financial years 2019/20 to 2022/23, for the top 25 claimant firms by volume of claims closed (or settled as a PPO).

PPOs

The information disclosed includes damages and costs paid up to the end of the settlement year (in Periodical payment order (PPO) cases) and up to the end of the closure year in non-PPO cases.

PPOs are an agreement between the parties, to pay an initial lump sum and regular future payments (PPO damages) related to the injured party's ongoing needs, usually care for life i.e., a percentage of the full value of the claim is paid at the point of settlement (lump sum damages) with the balance paid at regular intervals over subsequent years. The information disclosed includes lump sum damages, costs and any PPO damages paid up to the end of the year of settlement. It does not include

PPO damages, which have been committed to but due to be paid after the settlement year.

Low Numbers
We have supressed low numbers as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3)(a)(i) of the FOI Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information, and any disclosure would therefore contravene the first data protection principle.

In some instances, the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved. Where we are in the territory of such small numbers in the attached, we have used a '#' symbol in the relevant field. You should still be able to see aggregate/total details for higher level fields containing this data.

If you would like to know how data is categorised in our Claims database please see the following link: Glossary

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to Tinku Mitra, Deputy Director of Corporate and Information Governance, Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow
Cheshire
