October 2024
FOI_6753

The following information was requested on 17 September and clarified on 2 October 2024:

[You requested the following information on 17 September 2024]:

Has the NHS made payment to one or more NHS patients, or pursued a case against a manufacturer where an NHS patient(s) has been adversely affected following prescription or treatment by the NHS with dronedarone or amiodarone?

[We sought clarification on 20 September 2024]:

Thank you for your request.

Before we can respond I would like to clarify a few points.

Please refer to our publication: [Guidance-note-Understanding-NHS-Resolution-data-updated](#) and a set of codes against which claims are logged in Claims Management database: [CNST-Codes.xlsx \(live.com\)](#) (see the three tabs in the spreadsheet).

We would not be able to extract the details of medication used, i.e. dronedarone or amiodarone.

We have following codes that could apply: causes: Medication error, Err With Agnt/Dose/Route/Selec and Incorrect Injection Site. Please, review the documents I linked above to find other codes you may be interested in.

We could provide you with the numbers of claims received, numbers of claims closed with damages paid and associated cost, breakdown by Trust and by financial year. If you are interested in this information, please provide us with the time period you would like the data to cover.

You can also look at analyses carried out by NHSR Safety and Learning team: <https://resolution.nhs.uk/2023/03/30/learning-from-medication-errors/>

Your request will be put on hold until we hear back from you.

[You replied on 2 October 2024 with]:

Thank you for your email below.

The prescription of the medication and subsequent hospitalisation is outside the three-year limitation. If possible, I would appreciate the information in the highlighted paragraph below, starting at 2014. The medication was the cause of cryptogenic organising pneumonia that is also known as pulmonary toxicity, that may be referenced in claims.

Our Response

Please find attached the requested information. This information covers England and not the rest of the UK.

NB: We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to <https://resolution.nhs.uk/resources/understanding-nhs-resolution-data>.

Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of clinical negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle and close. **They are not guaranteed to be settled and closed in the same year.** As such, there will be a time gap between incident and claim closure.

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case has been closed (as nil damages payment), challenged, reopened, and closed again at conclusion.

The data shows variation in numbers of cases received, closed per year and costs attributed to those claims. This is a reflection of the nature of individual claims received and resolved by NHS Resolution, which can vary significantly. As such, these fluctuations cannot be interpreted as trends.

We have provided data on clinical cases only.

Table 1 shows: - Number of Clinical Claims and/or Incidents received between financial years 2013/14 and 2023/24 where the Primary Cause is 'Medication Errors', or 'Err With Agnt/Dose/Route/Selec', or 'Incorrect Injection Site'.

Table 2 shows: - Number of Clinical Claims and/or Incidents received between financial years 2013/14 and 2023/24 where the Primary Cause is 'Medication Errors', 'Err With Agnt/Dose/Route/Selec', or 'Incorrect Injection Site'. Broken down by Trust.

Please note Claims recorded against the Department of Health and Social Care (showing as Department of Health) include liabilities arising from defunct NHS organisations, which transferred to the Secretary of State for Health and Social Care when those organisations were abolished. They also include claims under the [Existing Liabilities Scheme for General Practice \(ELSGP\)](#) – a state indemnity scheme for

general practice, providing indemnity cover for NHS clinical negligence claims made against current and former GP members of medical defence organisations in respect of liabilities incurred before 1 April 2019. Coverage for [Clinical Negligence Scheme for General Practice \(CNSGP\) - NHS Resolution](#) began on 1 April 2019. This also applies to claims against NHS England. More details on each scheme can be found via the following link: [Clinical schemes - NHS Resolution](#).

Tables 3 shows: - Number and Cost of Clinical Claims Closed (or settled with a periodical payment order) between financial years 2013/14 and 2023/24 with a damages payment, where the Primary Cause is 'Medication Errors', 'Err With Agnt/Dose/Route/Selec', or 'Incorrect Injection Site'. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 4 shows: - Number and Cost of Clinical Claims Closed (or settled with a periodical payment order) between financial years 2013/14 and 2023/24 with a damages payment, where the Primary Cause is 'Medication Errors', or 'Err With Agnt/Dose/Route/Selec', or 'Incorrect Injection Site'. Broken down by Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

PPOs -

The information disclosed includes damages and costs paid up to the end of the settlement year (in Periodical payment order (PPO) cases) and up to the end of the closure year in non-PPO cases.

PPOs are an agreement between the parties, to pay an initial lump sum and regular future payments (PPO damages) related to the injured party's ongoing needs, usually care for life i.e., a percentage of the full value of the claim is paid at the point of settlement (lump sum damages) with the balance paid at regular intervals over subsequent years. The information disclosed includes lump sum damages, costs and any PPO damages paid up to the end of the year of settlement. It does not include PPO damages, which have been committed to but due to be paid after the settlement year.

Low Numbers

Please note we have suppressed low figures as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A) (a) of the Freedom of Information Act 2000, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information, and any disclosure would therefore contravene the first data protection principle.

In some instances, the low numbers of claims in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved. Where we are in the territory of such small numbers in the attached, we have used a '#' symbol in the relevant field. You should still be able to see aggregate/total details for higher level fields containing this data.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced a number of [reports](#) from analysing our claims data which has been shared following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Tinku Mitra](#), Deputy Director of Corporate and Information Governance, Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House

Water Lane
Wilmslow
Cheshire
SK9 5AF

<https://ico.org.uk/>

TABLE OF CONTENTS

NB: Number of claims fewer than 5 (and any associated values, within the same row) are masked with a "#" (in accordance with Data Protection guidelines). Accordingly, some total values may also be approximated to prevent masked values to be deduced through reverse calculation.

Table 1: Number of Clinical Claims and/or Incidents received between financial years 2013/14 and 2023/24 where the Primary Cause is 'Medication Errors', 'Err With Agnt/Dose/Route/Selec', or 'Incorrect Injection Site'.

Table 2: Number of Clinical Claims and/or Incidents received between financial years 2013/14 and 2023/24 where the Primary Cause is 'Medication Errors', 'Err With Agnt/Dose/Route/Selec', or 'Incorrect Injection Site'. Broken down by Trust.

Table 3: Number and Cost of Clinical Claims Closed (or settled with a periodical payment order) between financial years 2013/14 and 2023/24 with a damages payment, where the Primary Cause is 'Medication Errors', 'Err With Agnt/Dose/Route/Selec', or 'Incorrect Injection Site'. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 4: Number and Cost of Clinical Claims Closed (or settled with a periodical payment order) between financial years 2013/14 and 2023/24 with a damages payment, where the Primary Cause is 'Medication Errors', 'Err With Agnt/Dose/Route/Selec', or 'Incorrect Injection Site'. Broken down by Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 1: Number of Clinical Claims and/or Incidents received between financial years 2013/14 and 2023/24 where the Primary Cause is 'Medication Errors', 'Err With Agnt/Dose/Route/Selec', or 'Incorrect Injection Site'.
