Telephone: 020 7811 2700

March 2025

FOI\_7087

The following information was requested on 6 March 2025 and clarified on 7 March 2025:

*[On 6 March 2025 you requested]*

*I am writing to request information under the Freedom of Information Act regarding clinical claims and incidents received by NHS Resolution where the Specialty is 'Gastroenterology'.*

*Specifically, I request the following:*

- 1. Number of Clinical Claims and Incidents received where the Specialty is 'Gastroenterology' (for gastrointestinal issues that may be misdiagnosed as bowel cancer), split by Trust and primary injury.*
- 2. Number and cost of Clinical Claims Closed or Settled with damages paid, where the Specialty is 'Gastroenterology' (for gastrointestinal issues misdiagnosed as bowel cancer), split by Trust, primary injury, and primary cause.*

*Please ensure this includes details on claims related to misdiagnosis, delayed diagnosis, or failure to diagnose bowel cancer.*

*Please provide data for the financial years 2021/2022, 2022/23 and 2023/24. Please can I request that the data is broken down by financial year and not combined for all requested years.*

*[On 7 March 2025 we sought clarification]*

*Thank you for your email to NHS Resolution. Before we can respond we will need to clarify parts of it.*

*Please refer to our publication: [Guidance-note-Understanding-NHS-Resolution-data-updated](#) and a set of codes against which claims are logged: [CNST-Codes.xlsx \(live.com\)](#) (see the three tabs in the spreadsheet).*

*We do not have a code for bowel cancer, therefore we won't be able to provide this data. We do have injury code: cancer and advanced stage cancer. Please, review the above codes and let us know if you are interested in any others.*

*We can provide information about claims for Gastroenterology split by injury, cause, Trust and financial years.*

*Your request will be put on hold until we hear back from you.*

*[You replied on 7 March 2025]*

*Thanks for your quick response and clarification request.*

*Please can I proceed with this request for claims data in **Gastroenterology** split by injury, cause, Trust and financial years, for the following injury codes:*

- Advanced Stage Cancer*
- Benign Tumour*
- Malignant Tumour*
- Cancer*

*Please can you provide the claims data separately for each injury code, instead of providing combined figures for all mentioned injury codes for each Trust.*

*For example: "Financial year 2023/24 - Trust X - Injury Code: "Advanced Stage Cancer" - 1. Claims numbers received and 2. Settled Claims with Damages paid for each cause code separately"*

*[We replied on 7 March 2025 with]*

*thank you for your clarification.*

*I would like to note, however, that the breakdown you requested, i.e.*

*For example: "Financial year 2023/24 - Trust X - Injury Code: "Advanced Stage Cancer" - 1. Claims numbers received and 2. Settled Claims with Damages paid for each cause code separately"*

*Is likely to result in low numbers and we are unable to disclose any number less than 5 (it would be #out). We are unable to disclose any details that would allow the identification of the individual claim, where it could lead to the breach of the Data Protection requirements.*

*We could, for example, provide data for claims within your timeframe, without breaking them by each year. We could then provide breakdown by trust and injury codes you mentioned.*

*Would you be interested in that data?*

*[You replied 7 March 2025]*

*Thank you for quick response and appreciate your recommendation.*

*Please could we go ahead with your recommendation of providing data for claims in Gastroenterology since 2021 without breaking them by each year, split by trust and the following injury codes:*

- Advanced Stage Cancer*
- Benign Tumour*
- Malignant Tumour*
- Cancer*

## Our Response

Thank you for your request for information. Please find attached the requested information we are able to provide. Please note we only hold information for England.

**Please note:** We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to <https://resolution.nhs.uk/resources/understanding-nhs-resolution-data>.

Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle and close. They are not guaranteed to be settled and closed in the same year. As such, there will be a time gap between incident and claim closure.

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case has been closed (as unsuccessful), challenged, reopened, and closed again at conclusion.

The data shows variation in numbers of cases received, closed per year and costs attributed to those claims. This is a reflection of the nature of individual claims received by NHS Resolution, which can vary significantly. In some cases, this can be affected by an adverse issue involving a number of patients. As such, these fluctuations cannot be interpreted as trends.

For information about our Clinical Negligence Schemes, please visit our website here: [Clinical schemes - NHS Resolution](#)

**Please note:** these tables should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform.

**Table 1 shows:** - Number of Clinical Claims and Incidents received between financial years '2021/22' and '2023/24' where the Specialty is '**Gastroenterology**' and the Primary Injury is one of the following: Advanced Stage Cancer, Benign Tumour, Malignant Tumour, or Cancer. Broken down by Trust and Primary Injury.

**Table 2 shows:** - Number of Clinical Claims and Incidents received between financial years '2021/22' and '2023/24' where the Specialty is '**Gastroenterology**' and the Primary Injury is one of the following: Advanced Stage Cancer, Benign Tumour, Malignant Tumour, or Cancer. Broken down by Trust and Primary Cause.

**Table 3 shows:** - Number and Cost of Clinical Claims Closed between financial years '2021/22' and '2023/24' with a damages payment, where the Specialty is '**Gastroenterology**' and the Primary Injury is one of the following: Advanced Stage Cancer, Benign Tumour, Malignant Tumour, or Cancer, broken down by Trust and Primary Injury. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

**Table 4 shows:** - Number and Cost of Clinical Claims Closed between financial years '2021/22' and '2023/24' with a damages payment, where the Specialty is '**Gastroenterology**' and the Primary Injury is one of the following: Advanced Stage Cancer, Benign Tumour, Malignant Tumour, or Cancer, broken down by Trust and Primary Cause. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

### **Low Numbers**

We have suppressed low figures as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A) (a) of the FOI Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information, and any disclosure would therefore contravene the first data protection principle.

In some instances, the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved. Where we are in the territory of such small numbers in the attached, we have used a '#' symbol in the relevant field. You should still be able to see aggregate/total details for higher level fields containing this data.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced a number of [reports](#) from analysing our claims data, which has been shared

following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

**This concludes our response to your request.**

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Joanne Appleby](#), Deputy Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House  
Water Lane  
Wilmslow  
Cheshire  
SK9 5AF

## TABLE OF CONTENTS

**NB: Number of claims fewer than 5 (and any associated values, within the same row) are masked with a "#" (in accordance with Data Protection guidelines). Accordingly, some total values may also be approximated to prevent masked values to be deduced through reverse calculation.**

Table 1: Number of Clinical Claims and Incidents received between financial years '2021/22' and '2023/24' where the Specialty is 'Gastroenterology' and the Primary Injury is one of the following: Advanced Stage Cancer, Benign Tumour, Malignant Tumour, or Cancer. Broken down by Trust and Primary Injury.

Table 2: Number of Clinical Claims and Incidents received between financial years '2021/22' and '2023/24' where the Specialty is 'Gastroenterology' and the Primary Injury is one of the following: Advanced Stage Cancer, Benign Tumour, Malignant Tumour, or Cancer. Broken down by Trust and Primary Cause.

Table 3: Number and Cost of Clinical Claims Closed between financial years '2021/22' and '2023/24' with a damages payment, where the Specialty is 'Gastroenterology' and the Primary Injury is one of the following: Advanced Stage Cancer, Benign Tumour, Malignant Tumour, or Cancer, broken down by Trust and Primary Injury. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

Table 4: Number and Cost of Clinical Claims Closed between financial years '2021/22' and '2023/24' with a damages payment, where the Specialty is 'Gastroenterology' and the Primary Injury is one of the following: Advanced Stage Cancer, Benign Tumour, Malignant Tumour, or Cancer, broken down by Trust and Primary Cause. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

**Table 1: Number of Clinical Claims and Incidents received between financial years '2021/22' and '2023/24' where the Specialty is 'Gastroenterology' and the Primary Injury is one of the following: Advanced Stage Cancer, Benign Tumour, Malignant Tumour, or Cancer. Broken down by Trust and Primary Injury.**
