The following information was requested on 15 April 2025:

For each of the last three financial years (22-23, 23-24, 24-25), please provide a list (in excel format) of all the claimant firms to have received money from the NHSLA in relation to claimant costs for the clinical negligence scheme (CNST). Please split each year into a separate workbook/tab.

For each of the firms please provide the following information:

1. Claimant Firm Name
2. Nr of Claims
3. Damages Paid
4. Defence Costs Paid
5. Claimant Costs Paid
6. Total Paid

Our Response

Thank you for your request. Data for the financial year 2024/25 is currently unavailable and will be available on request from August 2025. We have therefore provided you with the data for the following financial years 2021/22 – 2023/24.

Please note: We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to <https://resolution.nhs.uk/resources/understanding-nhs-resolution-data>.

Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle and close. They are not guaranteed to be settled and closed in the same year. As such, there will be a time gap between incident and claim closure.

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case has been closed (as nil damages payment), challenged, reopened and closed again at conclusion.

Please find attached:

Table 1 shows: - The number and associated cost of Clinical Negligence Scheme for Trusts ([CNST](#)) claims Closed (or settled as PPO) in the financial year 2021/22 with Damages Paid **or** Nil Damages, broken down by Claimant Solicitor (with 5 or more claims). The data includes the costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement. The data excludes claims without a Claimant Solicitor recorded against it.

Table 2 shows: - The number and associated cost of Clinical Negligence Scheme for Trusts ([CNST](#)) claims Closed (or settled as PPO) in the financial year 2022/23 with Damages Paid **or** Nil Damages, broken down by Claimant Solicitor (with 5 or more claims). The data includes the costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement. The data excludes claims without a Claimant Solicitor recorded against it.

Table 3 shows: - The number and associated cost of Clinical Negligence Scheme for Trusts ([CNST](#)) claims Closed (or settled as PPO) in the financial year 2023/24 with Damages Paid **or** Nil Damages, broken down by Claimant Solicitor (with 5 or more claims). The data includes the costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement. The data excludes claims without a Claimant Solicitor recorded against it.

PPOs

The information disclosed includes damages and costs paid up to the end of the settlement year (in Periodical payment order (PPO) cases) and up to the end of the closure year in non-PPO cases.

PPOs are an agreement between the parties, to pay an initial lump sum and regular future payments (PPO damages) related to the injured party's ongoing needs, usually care for life i.e., a percentage of the full value of the claim is paid at the point of settlement (lump sum damages) with the balance paid at regular intervals over subsequent years. The information disclosed includes lump sum damages, costs and any PPO damages paid up to the end of the year of settlement. It does not include PPO damages, which have been committed to but due to be paid after the settlement year.

Low Numbers

We have suppressed low numbers, and the names of claimant firms with fewer than 5 claims, as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3)(a)(i) of the FOI Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information, and any disclosure would therefore contravene the first data protection principle.

In some instances, the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved. Where we are in the territory of such small numbers in the attached, we have used a '#' symbol in the relevant field. You should still be able to see aggregate/total details for higher level fields containing this data.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Joanne Appleby](#), Deputy Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:
