May 2025
FOI_7186

The following information was requested on 22 April 2025:

I would like to request information held by NHS Resolution relating to negligence claims against trusts in Leicestershire (Leicestershire Partnership NHS Trust and University Hospitals of Leicester NHS Trust).

Please provide:

- 1. The number of clinical claims received between financial years 2015/2016 and 2024/2025, broken down by trust and speciality.*
- 2. The number and cost of clinical claims closed (or settled with a periodical payment order) between financial years 2015/2016 and 2024/2025 with a damages payment, broken down by trust, speciality, injury and cause.*

Our Response

Please find attached the requested information we are able to provide. We report in complete financial years. The data for the financial year 2024/25 is currently unavailable and will be available on request from August 2025.

NB: We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to <https://resolution.nhs.uk/resources/understanding-nhs-resolution-data>.

Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of clinical negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle and close. They are not guaranteed to be settled and closed in the same year. As such, there will be a time gap between incident and claim closure.

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case has been closed (as nil damages payment), challenged, reopened and closed again at conclusion.

The data shows variation in numbers of cases received, closed per year and costs attributed to those claims. This is a reflection of the nature of individual claims received and resolved by NHS Resolution, which can vary significantly. As such, these fluctuations cannot be interpreted as trends.

We have provided data on clinical claims for the Trusts specified in your request. For details about the schemes we operate, please refer to our website here: [Claims Management - NHS Resolution](#)

Please note: these tables should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform.

Please find attached the following tables:

Table 1 shows: - Number of Clinical Claims and Incidents received between financial years '2015/16' and '2023/24' for 'Leicestershire Partnership NHS Trust' and 'University Hospitals of Leicester NHS Trust', broken down by Trust.

Table 2 shows: - Number of Clinical Claims and Incidents received between financial years '2015/16' and '2023/24' for 'Leicestershire Partnership NHS Trust' and 'University Hospitals of Leicester NHS Trust', broken down by Trust and Specialty.

Table 3 shows: - Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2015/16' and '2023/24' with a damages payment, for 'Leicestershire Partnership NHS Trust' and 'University Hospitals of Leicester NHS Trust', broken down by Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 4 shows: - Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2015/16' and '2023/24' with a damages payment, for 'Leicestershire Partnership NHS Trust' and 'University Hospitals of Leicester NHS Trust', broken down by Trust and Specialty. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 5 shows: - Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2015/16' and '2023/24' with a damages payment, for 'Leicestershire Partnership NHS Trust' and 'University Hospitals of Leicester NHS Trust', broken down by Trust and Primary Injury. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 6 shows: - Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2015/16' and '2023/24' with a damages payment, for 'Leicestershire Partnership NHS Trust' and 'University Hospitals of Leicester NHS Trust', broken down by Trust and Primary Cause. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

PPOs

The information disclosed includes damages and costs paid up to the end of the settlement year (in Periodical payment order (PPO) cases) and up to the end of the closure year in non-PPO cases.

PPOs are an agreement between the parties, to pay an initial lump sum and regular future payments (PPO damages) related to the injured party's ongoing needs, usually care for life i.e., a percentage of the full value of the claim is paid at the point of settlement (lump sum damages) with the balance paid at regular intervals over subsequent years. The information disclosed includes lump sum damages, costs and any PPO damages paid up to the end of the year of settlement. It does not include PPO damages, which have been committed to but due to be paid after the settlement year.

Low Numbers

Please note we have suppressed low figures as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A) (a) of the Freedom of Information Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation.

In some instances, the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced a number of [reports](#) from analysing our claims data which has been shared following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Joanne Appleby](#), Deputy Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF
