November 2025

FOI_7533

The following information was requested on 4 November 2025:

*Hope you are well. Please provide me with the information below regarding claims settled and claims received for **Northern Care Alliance**.*

- Claims settled and received for gynaecology (non-obstetric) by calendar year from 2015 to 2025 (to date), please include data separated by cause code and injury code.*
- Outcomes of any Maintaining High Professional Standards investigations relating to gynaecology at Northern Care Alliance. If possible, to provide summaries for the investigation findings and recommendations.*
- Claims settled and received for renal by calendar year from 2015 to 2025 (to date), please include data separated by cause code and injury code.*
- Claims settled and received for respiratory by calendar year from 2015 to 2025 (to date), please include data separated by cause code and injury code.*

Our Response

Thank you for your request for information. We report in financial years and not calendar years. We are able to provide some of the data requested for the following financial years 2014/15 - 2024/25.

In response to – *Outcomes of any Maintaining High Professional Standards investigations relating to gynaecology at Northern Care Alliance. If possible, to provide summaries for the investigation findings and recommendations.*

NHS Resolution provides expertise to the NHS on resolving concerns and disputes fairly. This includes Claims Management, which operates separately from the Practitioner Performance Advice service ('the Advice service'). The Advice service provides impartial advice, on a confidential basis, to healthcare organisations to help them effectively manage and resolve concerns raised about the practice of individual doctors, dentists and pharmacists. Advice work involves advising on the application of [national frameworks, guidance and standards](#), including Maintaining High Professional Standards in the Modern NHS. The Advice service is advisory in nature; it is not a decision-making or an investigative body. In all cases, any decisions about the ongoing management, employment or contractual status of the practitioner rests solely with the healthcare organisation. As such, there is no requirement for the Advice service to record information about outcomes or investigations as part of our case management.

You can find more information about the Advice service here: [Practitioner Performance Advice \(formerly NCAS\) - NHS Resolution](#).

Please find attached below the Claims information we are able to provide.

Please note: We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to <https://resolution.nhs.uk/resources/understanding-nhs-resolution-data>.

Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of clinical negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle and close. They are not guaranteed to be settled and closed in the same year. As such, there will be a time gap between incident and claim closure.

Please also note that claims received may not go on to be settled with a payment for compensation.

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case has been closed (as unsuccessful), challenged, reopened, and closed again at conclusion.

The data shows variation in numbers of cases received, closed per year and costs attributed to those claims. This is a reflection of the nature of individual claims received and resolved by NHS Resolution, which can vary significantly. As such, these fluctuations cannot be interpreted as trends.

We have provided data based on our [Clinical Negligence Scheme for Trusts - NHS Resolution](#).

Please find attached the following information we are able to provide:

Table 1 shows: - Number of CNST Claims and Incidents received between financial years '2014/15' and '2024/25' for **Northern Care Alliance NHS Foundation Trust** where the Specialty is 'Gynaecology', 'Renal Medicine' or 'Respiratory Medicine/ Thoracic Medic'. Breakdown by Year and Specialty.

Table 2 shows: - Number of CNST Claims and Incidents received between financial years '2014/15' and '2024/25' for **Northern Care Alliance NHS Foundation Trust** where the Specialty is 'Gynaecology', 'Renal Medicine' or 'Respiratory Medicine/ Thoracic Medic'. Breakdown by Specialty and Primary Injury.

Table 3 shows: - Number of CNST Claims and Incidents received between financial years '2014/15' and '2024/25' for **Northern Care Alliance NHS Foundation Trust** where the Specialty is 'Gynaecology', 'Renal Medicine' or 'Respiratory Medicine/ Thoracic Medic'. Breakdown by Specialty and Primary Cause.

Table 4 shows: - Number and Cost of CNST Claims Closed between financial years '2014/15' and '2024/25' for **Northern Care Alliance NHS Foundation Trust** with a damages payment, where the Specialty is 'Gynaecology', 'Renal Medicine' or 'Respiratory Medicine/ Thoracic Medic'. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure. Breakdown by Year and Specialty.

Table 5 shows: - Number and Cost of CNST Claims Closed between financial years '2014/15' and '2024/25' for **Northern Care Alliance NHS Foundation Trust** with a damages payment, where the Specialty is 'Gynaecology', 'Renal Medicine' or 'Respiratory Medicine/ Thoracic Medic'. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure. Breakdown by Specialty and Primary Injury.

Table 6 shows: - Number and Cost of CNST Claims Closed between financial years '2014/15' and '2024/25' for **Northern Care Alliance NHS Foundation Trust** with a damages payment, where the Specialty is 'Gynaecology', 'Renal Medicine' or 'Respiratory Medicine/ Thoracic Medic'. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure. Breakdown by Specialty and Primary Cause.

Table 7 shows: - Number and Cost of CNST Claims Closed between financial years '2014/15' and '2024/25' for **Northern Care Alliance NHS Foundation Trust** with **NIL** damages paid where the Specialty is 'Gynaecology', 'Renal Medicine' or 'Respiratory Medicine/ Thoracic Medic'. Breakdown by Year and Specialty.

Table 8 shows: - Number and Cost of CNST Claims Closed between financial years '2014/15' and '2024/25' for **Northern Care Alliance NHS Foundation Trust** with **NIL** damages paid where the Specialty is 'Gynaecology', 'Renal Medicine' or 'Respiratory Medicine/ Thoracic Medic'. Breakdown by Specialty and Primary Injury.

Table 9 shows: - Number and Cost of CNST Claims Closed between financial years '2014/15' and '2024/25' for **Northern Care Alliance NHS Foundation Trust** with **NIL** damages paid where the Specialty is 'Gynaecology', 'Renal Medicine' or 'Respiratory Medicine/ Thoracic Medic'. Breakdown by Specialty and Primary Cause.

Section 40 Refusal Notice

We have not provided the information for low figures involved (or high numbers that make it possible to work out what some low numbers are), as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A) (a) of the FOI Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information and any disclosure would therefore contravene the first data protection principle.

In some instances, the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced several [reports](#) from analysing our claims data which has been shared following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

Please refer to [Understanding NHS Resolution data](#) guidance for further details on how our Claims database is categorised.

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Joanne Appleby](#), Deputy Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow

Cheshire
SK9 5AF
