

Resolution

8th Floor,
10 South Colonnade
Canary Wharf
London
E14 4PU

Telephone: 020 7811 2700

March 2026
FOI_7745

The following information was requested on 23 February 2026:

I am writing to request information under the Freedom of Information Act 2000.

Please provide the following information for the period 1 January 2020 to the date of your response.

This request relates to clinical negligence claims handled by NHS Resolution for NHS-funded care in England.

For the purposes of this request, "consent-related claims" means claims where the allegation is coded using NHS Resolution's structured coding as:

"Fail to warn – informed consent" (or the closest equivalent allegation/cause code used by NHS Resolution)

1) Trust-level cumulative totals (2020 to date)

Please provide a table showing, for each Acute NHS Trust in England:

number of claims notified since 1 January 2020 with the above allegation/cause code

-number of claims settled with damages paid since 1 January 2020 with the above allegation/cause code

-total damages paid (£) since 1 January 2020 for settled claims with the above allegation/cause code

If NHS Resolution also holds these fields in the same reportable format, please include:

-total claimant legal costs paid (£)

-total defence legal costs paid (£)

-total combined payout (£)

2) National total (for validation)

Please also provide the national totals for the same period (claim counts and damages paid), so the trust-level data can be validated.

3) Independent sector providers (where held)

Where NHS Resolution holds comparable data for independent sector providers delivering NHS-funded care (and covered by NHS Resolution schemes), please provide a separate table showing:

-provider name

-number of claims notified since 1 January 2020 with the above allegation/cause code

-number of claims settled with damages paid since 1 January 2020

total damages paid (£) since 1 January 2020

If provider-level disclosure exceeds the cost limit, please provide an aggregated total for independent sector providers.

Format

*Please provide the information in spreadsheet format (CSV or Excel).
I am not requesting any patient-identifiable or staff-identifiable information; aggregated data is sufficient.
If any part of this request exceeds the cost limit, please provide advice and assistance under Section 16 as to how the request may be refined.*

Our Response

Please find attached the requested information. Please note we only hold information for England and not for the rest of the UK.

NB: We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to [Understanding NHS Resolution data - NHS Resolution](#).

Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of clinical negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle and close. **They are not guaranteed to be settled and closed in the same year.** As such, there will be a time gap between incident and claim closure.

The data shows variation in numbers of cases closed per year and costs attributed to those claims. This is a reflection of the nature of individual claims received and resolved by NHS Resolution, which can vary significantly. As such, these fluctuations cannot be interpreted as trends.

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case has been closed (as nil damages payment), challenged, reopened, and closed again at conclusion.

The data provided covers our Clinical Negligence Scheme for Trusts (CNST) and includes data for all types of Trusts in England, including Acute, Foundation and Community Trusts. The data also includes claims relating to Independent Sector Providers (ISPs). Please visit our website for more information about our [Clinical Negligence Scheme for Trusts - NHS Resolution](#).

Table 1 shows: - Number of CNST Claims and Incidents received between financial years '2019/20' and '2024/25' where the Primary Cause is 'Fail to Warn - Informed Consent', broken down by Trust.

Table 2 shows: - Number of CNST Claims and Incidents received between financial years '2019/20' and '2024/25' where the Primary Cause is 'Fail to Warn - Informed Consent', broken down by **Independent Sector Provider**.

Table 3 shows: - Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2024/25' with a damages payment, where the Primary Cause is 'Fail to Warn - Informed Consent', broken down by **Trust**. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 4 shows: - Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2024/25' with a damages payment, where the Primary Cause is 'Fail to Warn - Informed Consent', broken down by **Independent Sector Provider**. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Please note: the tables broken down by Trust and Organisation should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

PPOs

The information disclosed includes damages paid up to the end of the settlement year (in Periodical payment order (PPO) cases) and up to the end of the closure year in non-PPO cases.

PPOs are an agreement between the parties, to pay an initial lump sum and regular future payments (PPO damages) related to the injured party's ongoing needs, usually care for life i.e., a percentage of the full value of the claim is paid at the point of settlement (lump sum damages) with the balance paid at regular intervals over subsequent years. The information disclosed includes lump sum damages and any PPO damages paid up to the end of the year of settlement. It does not include PPO damages, which have been committed to but due to be paid after the settlement year.

Low figures

We have not provided the information for low figures involved, as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A) (a) of the FOI Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take

the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information, and any disclosure would therefore contravene the first data protection principle.

In some instances, the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced several [reports](#) from analysing our claims data which has been shared following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

Please refer to [Understanding NHS Resolution data](#) guidance for further details on how our Claims database is categorised.

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Joanne Appleby](#), Deputy Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF

TABLE OF CONTENTS

NB: Number of claims fewer than 5 (and any associated values, within the same row) are masked with a "#" (in accordance with Data Protection guidelines). Accordingly, some total values may also be approximated to prevent masked values to be deduced through reverse calculation.

Table 1: Number of CNST Claims and Incidents received between financial years '2019/20' and '2024/25' where the Primary Cause is 'Fail to Warn - Informed Consent', broken down by Trust.

Table 2: Number of CNST Claims and Incidents received between financial years '2019/20' and '2024/25' where the Primary Cause is 'Fail to Warn - Informed Consent', broken down by Independent Sector Provider.

Table 3: Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2024/25' with a damages payment, where the Primary Cause is 'Fail to Warn - Informed Consent', broken down by Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 4: Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2024/25' with a damages payment, where the Primary Cause is 'Fail to Warn - Informed Consent', broken down by Independent Sector Provider. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 3: Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2024/25' with a damages payment, where the Primary Cause is 'Fail to Warn - Informed Consent', broken down by Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.
