8th Floor,
10 South Colonnade
Canary Wharf
London
E14 4PU
Telephone: 020 7811 2700

April 2026
FOI_7795

The following information was requested on 19 March 2026:

I am requesting this information under the Freedom of Information Act.

Could you please provide data in response to the following questions:

1. The number of claims against NHS Trusts by NHS staff for personal injury/accidents at work in the last 5 years? Please break down by financial year (2020/2021, 2021/22, 2022/23, 2023/24 and 2024/25) and by cause - for instance, needlestick injuries; slips, trips and falls; faulty equipment; injuries/illnesses caused by inadequate PPE; assault in the workplace; bullying and harassment in the workplace; sexual assault/harassment in the workplace.

1a) Can the same information also be broken down by NHS Trust?

1b) Can the same information be broken down by injury and/or cause?

2. The number and cost of claims against NHS Trusts by NHS staff for personal injury/accidents at work in the last 5 years? Please break down by financial year (2020/2021, 2021/22, 2022/23, 2023/24 and 2024/25) and by cause - for instance, needlestick injuries; slips, trips and falls; faulty equipment; injuries/illnesses caused by inadequate PPE; assault in the workplace; bullying and harassment in the workplace; sexual assault/harassment in the workplace.

2a) Can the same information also be broken down by NHS Trust (Including no. of claims, damages paid, NHS legal costs paid, claimant legal costs paid, total paid.)

2b) Can the same information be broken down by injury and /or cause? (Including no. of claims, damages paid, NHS legal costs paid, claimant legal costs paid, total paid.)

Our Response

Please find attached the requested information we are able to provide. We only hold claims data for England, not the rest of the UK.

Please note: We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to [Understanding NHS Resolution data - NHS Resolution](#)

Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of clinical negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle and close. **They are not guaranteed to be settled and closed in the same year.** As such, there will be a time gap between incident and claim closure. Not all claims received will result in an award of compensation.

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case has been closed (as nil damages payment), challenged, reopened, and closed again at conclusion.

The data shows variation in numbers of cases received, closed per year and costs attributed to those claims. This is a reflection of the nature of individual claims received and resolved by NHS Resolution which can vary significantly. As such these fluctuations cannot be interpreted as trends.

LTPS Scheme

NHS Resolution manages a number of risk-pooling schemes (similar to insurance) for the NHS, one of which is the Liability to Third Parties Scheme (LTPS). This covers both employers' liability (**EL**) (i.e. in relation to duties of care owed to employees) and public liability (**PL**) (i.e. in relation to duties of care owed other patients, visitors, and other members of the public). You can find out more about the LTPS scheme here: [Liabilities to Third Parties Scheme - NHS Resolution](#)

Please **find attached** the following tables:

Table 1 shows: - Number of LTPS Claims and Incidents received between financial years '**2020/21**' and '**2024/25**' where the schedules are '**Employer's Liability**' and '**EL Portal**'. Broken down by **Primary Cause**.

Table 2 shows: - Number of LTPS Claims and Incidents received between financial years '**2020/21**' and '**2024/25**' where the schedules are '**Employer's Liability**' and '**EL Portal**'. Broken down by **NHS Trust**.

Table 3 shows: - Number of LTPS Claims and Incidents received between financial years '**2020/21**' and '**2024/25**' where the schedules are '**Employer's Liability**' and '**EL Portal**'. Broken down by **Primary Injury**.

Table 4 shows: - Number and Cost of LTPS Claims Closed between financial years '**2020/21**' and '**2024/25**' with a damages payment, where the schedules are '**Employer's Liability**' and '**EL Portal**'. Broken down by **Primary Cause**. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

Table 5 shows: - Number and Cost of LTPS Claims Closed between financial years '2020/21' and '2024/25' with a damages payment, where the schedules are 'Employer's Liability' and 'EL Portal'. Broken down by **NHS Trust**. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

Table 6 shows: - Number and Cost of LTPS Claims Closed between financial years '2020/21' and '2024/25' with a damages payment, where the schedules are 'Employer's Liability' and 'EL Portal'. Broken down by **Primary Injury**. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

Table 7 shows: - Number and Cost of LTPS Claims Closed between financial years '2020/21' and '2024/25' with **NIL** damages paid where the schedules are 'Employer's Liability' and 'EL Portal'. Broken down by **Primary Cause**.

Table 8 shows: - Number and Cost of LTPS Claims Closed between financial years '2020/21' and '2024/25' with **NIL** damages paid where the schedules are 'Employer's Liability' and 'EL Portal'. Broken down by **NHS Trust**.

Table 9 shows: - Number and Cost of LTPS Claims Closed between financial years '2020/21' and '2024/25' with **NIL** damages paid where the schedules are 'Employer's Liability' and 'EL Portal'. Broken down by **Primary Injury**.

Please note: the tables broken down by Trust should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases and costs attributed to them may be impacted by multiple claims notified in relation to one cause of action.

Low figures

Please note we have suppressed low figures and fields (causes, injuries and trusts) with fewer than 5 claims as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A) (a) of the Freedom of Information Act 2000, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information, and any disclosure would therefore contravene the first data protection principle.

In some instances, the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced a number of [reports](#) from analysing our claims data which has been shared following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Joanne Appleby](#), Deputy Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 5: Number and Cost of LTPS Claims Closed between financial years '2020/21' and '2024/25' with a damages payment, where the schedules are 'Employer's Liability' and 'EL Portal'. Broken down by NHS Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 5: Number and Cost of LTPS Claims Closed between financial years '2020/21' and '2024/25' with a damages payment, where the schedules are 'Employer's Liability' and 'EL Portal'. Broken down by NHS Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 8: Number and Cost of LTPS Claims Closed between financial years '2020/21' and '2024/25' with NIL damages paid where the schedules are 'Employer's Liability' and 'EL Portal'. Broken down by NHS Trust.
