July 2026
FOI_7936

The following information was requested on 10 June 2026:

This request is a follow up on [FOI 7815 Acute-compartment-syndrome-broken-down-by-specialty.pdf](#)

We ideally need data specific to Compartment syndrome.

Could you please provide the same six tables as supplied in FOI_7815 but restricted to cases where the primary Injury is recorded as "Compartment Syndrome" only, for financial years 2015/16–2024/25.

Our Response

Please find attached the requested information. This information only covers England and not the rest of the UK.

NB: We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to [Guidance-note-Understanding-NHS-Resolution-data-updated](#)

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case has been closed (as nil damages payment), challenged, reopened, and closed again at conclusion.

The data shows variation in numbers of cases received, closed per year and costs attributed to those claims. This is a reflection of the nature of individual claims received and resolved by NHS Resolution which can vary significantly. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action. As such these fluctuations cannot be interpreted as trends.

Claims notified/received in any given year will often relate to incidents that have

occurred many years prior. Due to the nature of clinical negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle and close. **They are not guaranteed to be settled and closed in the same year.** As such, there will be a time gap between incident and claim closure. Not all claims received will result in an award of compensation.

We have provided data on [Clinical Negligence Scheme for Trusts - NHS Resolution](#) cases only.

Please find attached the following tables:

Table 1: Number of CNST Claims and Incidents received for NHS Trusts between financial years '**2015/16**' and '**2024/25**' where the Specialty is 'Emergency Medicine', 'General Practice', 'General Surgery', 'Gynaecology', 'Obstetrics', 'Orthopaedic Surgery', 'Paediatric Surgery', 'Surgical Speciality - Other', 'Urology' or 'Vascular Surgery', and the Primary Cause is 'Application of Excess Force', 'Delay in Performing Operation', 'Fail/Delay Treatment', 'Fail to Act on Abnorm Test Res', 'Fail to Recog. Complications of', 'Fail To Warn Informed Consent', 'Failure to Perform Operation', 'Failure/Delay Diagnosis' and the Primary Injury is '**Compartment Syndrome**'. Broken down by **Year** and **Specialty**.

Table 2: Number of CNST Claims and Incidents received for NHS Trusts between financial years '**2015/16**' and '**2024/25**' where the Specialty is 'Emergency Medicine', 'General Practice', 'General Surgery', 'Gynaecology', 'Obstetrics', 'Orthopaedic Surgery', 'Paediatric Surgery', 'Surgical Speciality - Other', 'Urology' or 'Vascular Surgery', and the Primary Cause is 'Application of Excess Force', 'Delay in Performing Operation', 'Fail/Delay Treatment', 'Fail to Act on Abnorm Test Res', 'Fail to Recog. Complications of', 'Fail To Warn Informed Consent', 'Failure to Perform Operation', 'Failure/Delay Diagnosis' and the Primary Injury is '**Compartment Syndrome**'. Broken down by **Primary Cause** and **Specialty**.

Table 3: Number and Cost of CNST Claims Closed for NHS Trusts between financial years '**2015/16**' and '**2024/25**' with a damages payment, where the Specialty is 'Emergency Medicine', 'General Practice', 'General Surgery', 'Gynaecology', 'Obstetrics', 'Orthopaedic Surgery', 'Paediatric Surgery', 'Surgical Speciality -Other', 'Urology' or 'Vascular Surgery', and the Primary Cause is 'Application of Excess Force', 'Delay in Performing Operation', 'Fail/Delay Treatment', 'Fail to Act on Abnorm Test Res', 'Fail to Recog. Complications of', 'Fail To Warn-Informed Consent', 'Failure to Perform Operation', 'Failure/Delay Diagnosis' and the Primary Injury is '**Compartment Syndrome**'. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure. Broken down by **Year** and **Specialty**.

Table 4: Number and Cost of CNST Claims Closed for NHS Trusts between financial years '2015/16' and '2024/25' with a damages payment, where the Specialty is 'Emergency Medicine', 'General Practice', 'General Surgery', 'Gynaecology', 'Obstetrics', 'Orthopaedic Surgery', 'Paediatric Surgery', 'Surgical Speciality -Other', 'Urology' or 'Vascular Surgery', and the Primary Cause is 'Application of Excess Force', 'Delay in Performing Operation', 'Fail/Delay Treatment', 'Fail to Act on Abnorm Test Res', 'Fail to Recog. Complications of', 'Fail To Warn-Informed Consent', 'Failure to Perform Operation', 'Failure/Delay Diagnosis' and the Primary Injury is '**Compartment Syndrome**'. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure. Broken down by **Primary Cause** and **Specialty**.

Table 5: Number and Cost of CNST Claims Closed for NHS Trusts between financial years '2015/16' and '2024/25' with **NIL** damages paid where the Specialty is 'Emergency Medicine', 'General Practice', 'General Surgery', 'Gynaecology', 'Obstetrics', 'Orthopaedic Surgery', 'Paediatric Surgery', 'Surgical Speciality -Other', 'Urology' or 'Vascular Surgery', and the Primary Cause is 'Application of Excess Force', 'Delay in Performing Operation', 'Fail/Delay Treatment', 'Fail to Act on Abnorm Test Res', 'Fail to Recog. Complications of', 'Fail To Warn-Informed Consent', 'Failure to Perform Operation', 'Failure/Delay Diagnosis' and the Primary Injury is '**Compartment Syndrome**'. Broken down by **Year** and **Specialty**.

Table 6: Number and Cost of CNST Claims Closed for NHS Trusts between financial years '2015/16' and '2024/25' with **NIL** damages paid where the Specialty is 'Emergency Medicine', 'General Practice', 'General Surgery', 'Gynaecology', 'Obstetrics', 'Orthopaedic Surgery', 'Paediatric Surgery', 'Surgical Speciality -Other', 'Urology' or 'Vascular Surgery' and the Primary Cause is 'Application of Excess Force', 'Delay in Performing Operation', 'Fail/Delay Treatment', 'Fail to Act on Abnorm Test Res', 'Fail to Recog. Complications of', 'Fail To Warn-Informed Consent', 'Failure to Perform Operation', 'Failure/Delay Diagnosis' and the Primary Injury is '**Compartment Syndrome**'. Broken down by **Primary Cause** and **Specialty**.

Low figures

We have not provided the information for low figures involved (and high figures that would make it possible to work out low numbers), as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A) (a) of the FOI Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information, and any disclosure would therefore contravene the first data protection principle.

In some instances, the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced a number of [reports](#) from analysing our claims data which has been shared following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Joanne Appleby](#), Deputy Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF
