

# Factsheet 2: Financial information 2017/18

---

## Introduction

This factsheet provides information about the number and type of claims handled by NHS Resolution, a not-for-profit arm's length body of the Department of Health and Social Care, responsible for handling both clinical and non-clinical negligence cases on behalf of NHS organisations and, from 1 April 2013, independent sector providers of NHS care in England who are members of our clinical negligence schemes. Information about other aspects of NHS Resolution's activities is contained in further factsheets in this series, available on our website at [www.resolution.nhs.uk](http://www.resolution.nhs.uk). Our recent Annual Reports are also available on our website.

## The schemes managed by NHS Resolution:

1. Indemnifies providers of NHS care in England including:
  - NHS trusts;
  - NHS foundation trusts;
  - Clinical Commissioning Groups;
  - Independent sector providers of NHS care .
2. We administer clinical and non-clinical risk pooling indemnity schemes which NHS organisations may join, on a voluntary basis, as scheme members.
3. Our approach to pricing is to financially incentivise those organisations which have fewer, less costly claims, thereby supporting the reduction of harm and promoting better staff and patient safety.
4. Our indemnity schemes are:
  - a) The **Clinical Negligence Scheme for Trusts (CNST)** - for patients who suffer negligent harm arising from incidents on or after 1 April 1995.
    - CNST cover is unlimited in value and NHS Resolution funds the total cost of claims.
    - Since April 2013 independent sector providers of NHS healthcare have been entitled to join CNST in their own right.
  - b) The **Liabilities to Third Parties Scheme (LTPS)** – for non-clinical liabilities, typically employers' and public liability claims arising from incidents on or after 1 April 1999.

- Cover is unlimited in value, however some areas of cover are subject to an excess for which the member is responsible.
  - NHS Resolution funds the cost of claims above the excess.
  - NHS resolution offers a free handling service to members for claims below the excess.
- c) The **Property Expenses Scheme (PES)** - for 'first party' losses arising from property damage and associated business interruption expenses arising from incidents on or after 1 April 1999.
- d) The **Existing Liabilities Scheme (ELS)** - is centrally funded by the Department of Health and Social Care and covers clinical negligence claims against NHS organisations arising from incidents before 1 April 1995.
- e) The **Ex-RHA Scheme (Ex-RHAS)** - is a relatively small scheme funded by the Department of Health and Social Care covering clinical negligence claims made against former Regional Health Authorities which were abolished in 1996.

## Outstanding liabilities

As at 31 March 2018, NHS Resolution estimates that it has potential liabilities of £77.0 billion, of which £76.7 billion relate to clinical negligence claims (the remainder being liabilities under PES, LTPS and DH Non Clinical). This figure represents the estimated value of all known claims, together with an actuarial estimate of those incurred but not yet reported (IBNR), which are claims which may be brought in the future but have not yet (and may not) be brought and which may settle or be withdrawn over future years.

## Expenditure under each Scheme

In 2017/18, NHS Resolution made payments totalling **£2,285 million** in respect of all schemes. A breakdown of these payments between schemes, together with comparable data for previous years, is given overleaf. **It should be noted that these figures relate only to expenditure incurred by NHS Resolution itself.**

Until April 2000, when all outstanding ELS claims were "called in" to NHS Resolution, NHS organisations handled (and funded) lower value ELS claims themselves, and paid "excesses" on the higher value claims handled on their behalf by NHS Resolution. Similarly, until the call-in of CNST claims in April 2002, member organisations paid part of the cost of claims made under CNST. Excesses are still payable on the non-clinical schemes (LTPS and PES). The cost of these excesses, being carried by individual NHS organisations, is not included in NHS Resolution's figures.

## Legal costs

The following table sets out the amounts paid out by NHS Resolution for legal costs relating to clinical negligence claims closed in 2017/18 with damages paid. The figures are broken down into costs incurred by the NHS and by claimants: however they relate only to costs paid by NHS Resolution and hence do not include costs met by claimants themselves or by the Legal Services Commission.
