January 2019
FOI_3574

The following information was requested on 27 December 2018:

I would like to obtain the data on claims and compensation payments to patients for primary hip replacement, primary knee replacements and the total for the orthopaedic department from 2009-10 to today (or for a shorter period of time if this is not possible).

The breakdown I would need is by financial year and NHS trusts/NHS foundation trust and primary hip replacement, primary knee replacement and total in orthopaedics (with the usual ORGCODE).

Our Response

Please find attached the information we are able to provide in relation to orthopaedic claims.

By way of advice and assistance (and further to our duties under s. 16 FOIA): Our overarching claims management system (CMS) databases are currently set up to primarily record numerical and pre-defined field-based data, rather than free text (which is contained within the individual case files). We do not have specific coding for hip or knee operations.

Whilst there are limited free-text/descriptive fields on CMS, these will typically contain specific information about individual patients' cases and the likelihood is that this information will therefore be their 'personal data' (which it would be unfair to disclose – see below) and/or confidential. However, the content of the free-text field in any case will be non-standardised and may comprise information which is about the management of the claim by NHS Resolution, rather than the underlying episode of care itself. As you will see from the attached, we have handled over 1,000 cases with a definite 'orthopaedic' element over the past 9 years. Assuming (and this is optimistic) that it would take only one minute per case to review the free-text data to establish whether it did contain any information about hip and knee operations, this would exceed 18 hours work and in our view would place a disproportionate burden on NHS Resolution.

We have suppressed low figures as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3) (a) (i) of the Freedom of Information Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information, and any disclosure would therefore contravene the first data protection principle.

In some instances the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this

information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals identities', as disclosure could potentially cause damage and/or distress to those involved. Where we are in the territory of such small numbers in the attached, we have used a '#' symbol in the relevant field. You should still be able to see aggregate/total details for higher-level fields containing this data.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Tinku Mitra](#), Head of Corporate and Information Governance for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF
