The following information was requested on 2 May 2019:

*In relation to the (2017/18) financial year please state how many claims you paid out where the injury code has been “wrongful birth” and what was the total paid out in damages and the total in costs for those claims. Please state how many of the claims involved the birth of children who were healthy, how much the damages were for those cases and what the total sum paid out was in those cases.*

*NOTE: The breakdown per year should be on the basis of the year in which the payment was made regardless of when the incident took place or when the claim was lodged.*

### **Our Response**

Please find attached our response to your request.

It should be noted that we define “wrongful birth” as a clinical negligence claim brought by the parents of a child born with birth defects, alleging that negligent treatment or advice deprived them of the opportunity to avoid conception or terminate the pregnancy.

Our coding does not enable us to distinguish whether the claims related to birth of children who were healthy.

It is possible there are other cases which have been coded under less specific codes that relate to incidents under the more general umbrella of ‘parents not having been warned that the child would be born with a specific disability’ for reasons other than failed screenings. Therefore, on the issue of data quality, it should be noted that the database was designed primarily as a claims management tool rather than for research purposes, that it records only a limited amount of information, and that a claim may be multi-factoral and/or settled on a number of bases. It is our view, therefore, that the figures provided should be treated with caution and that they should not be relied on as a basis for audit or research.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

### **This concludes our response to your request.**

If you choose to do this, you should write to [Tinku Mitra](#), Head of Corporate and Information Governance for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.
