July 2020
FOI_4583 and FOI_4584

The following information was requested on 18 May 2020:

FOI_4583 - My second query relates to the request FOI_3981. I wondered if you are able to define the 'average of damages', 'average of defence costs' and 'average of claimant costs'?

FOI_4584 - Finally, if I were to ask for the preceding 5 years of data would this need to be another freedom of information request?

Previous FOI [FOI_3981 - Please provide the national average payments separately for damages and costs in respect of each clinical speciality over each of the last 5 years.]

Our Response

FOI_4583 - Having reviewed our response to FOI_3981 and the data disclosed in response we discovered the search parameters was not set to average. We apologise for this oversight and the error made and any inconvenience encountered.

We have reproduced this report using the correct search terms and the average used in regards to the costs provided is the mean costs, where you add up all the costs in that category and then divide by the number of claims.

FOI_4584 – Using the correct search parameters and the mean average in respect of costs please find attached the average for the financial years 2009/10 – 2013/14.

Please note we have suppressed low figures and we are unable to provide you with information about individual cases as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3) (a) (i) of the Freedom of Information Act 2000, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation.

In some instances the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals identities', as disclosure could potentially cause damage and/or distress to those involved. Where we are in the territory of such small numbers in the attached, we have used a '#' symbol in the relevant field. You should still be able to see aggregate/total details for higher level fields containing this data.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Tinku Mitra](#), Head of Corporate and Information Governance for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF

Table 1: National average payments for damages and costs in respect of each clinical specialty between financial years 2014/15 - 2018/19
