

Resolution

2nd Floor
151 Buckingham Palace Road
London
SW1W 9SZ
Telephone: 020 7811 2700

February 2021
FOI_4916

The following information was requested on 8 January 2021:

My FOI request relates to the National Health Service Litigation Authority (NHSLA) and NHS Resolution claims that have been submitted in the eight year time period from 1st April 2012 to 1st April 2020, specifically involving any of the 27 United Kingdom Major Trauma Centres. The purpose of this request is to explore NHSLA/NHSR submissions which involve, include, or are submitted by, or about the Major Trauma Team/ Members or departmental services at Major Trauma Centres. If there is no distinction made between the Major trauma department/services/department at the Major Trauma Centres then please could you include litigation raised against the Orthopaedic service/department/team in isolation?

If providing the data for the dates above would be at excessive burden to the Freedom of Information Service, I would instead be grateful for details of the earliest (i.e. from April 2012 and latest (i.e. up to April 2020) 10000 claims to NHSLA/NHSR.

If providing data for 10000 claims is still not feasible for your FOI office, I will be grateful for the maximum possible that you consider to be feasible, divided equally between the start and end of the time period (i.e. April 2012 and April 2020).

If there is data that can be presented in an Excel spreadsheet or CSV per claim, that would be the most helpful. If not, summary data would suffice. I would appreciate if data could be provided for the individual major trauma centres, however if this is not feasible, please provide the data for major trauma centres as a whole.

Specifically:

How many incidents occurred?

When was the claim/incident submitted?

Where did the claim/incident occur? You might have this in the form of roadside, in hospital, Emergency department, wards, theatre, recovery, outpatients. You might also have this by geographical region, which would be helpful to know.

What was the description of each claim? If no detailed description can be provided, what were the most common allegations?

What was the NHSLA/NHS category for each incident? You might have these as examples- medical device/equipment, patient accident, treatment, procedure, disruptive aggressive behaviour etc.

What of these have been classified of causing no harm/minor/moderate/major harm/life threatening harm/death?

What were the claimant demographics? For example, age, gender, ethnicity

Which have been shared/discussed with the patient and/or family?

Which of these claims have been settled, and which are not settled?

What were the most common reasons for lost claims?

What were the most common reasons for settled claims?

What were the financial costs related to settled, lost, and defended claims? This includes costs incurred and damages paid

What was the grade/job title of the professional whom the claim was raised against?

Our Response

We do not differentiate Major Trauma Centres within our claims database. We are able to provide you with information in relation to the claims received for the specialty Orthopaedics.

How many incidents occurred? - We are able to provide you with the number of claims received by Trusts in England for the specialty Orthopaedics between the financial period 2012/13 and 2019/20. Please see table 1 in the attached.

When was the claim/incident submitted? - Please see table 1 of the attached which indicates the year the claim was notified to us.

Where did the claim/incident occur? You might have this in the form of roadside, in hospital, Emergency department, wards, theatre, recovery, outpatients. You might also have this by geographical region, which would be helpful to know. - We are able to provide the name of the Trusts who received 5 or more claims during the time period specified. Please see table 2 in the attached.

What was the description of each claim? If no detailed description can be provided, what were the most common allegations? - We are able to provide the primary cause of the claim. Please see table 3 in the attached.

What was the NHSLA/NHS category for each incident? You might have these as examples- medical device/equipment, patient accident, treatment, procedure, disruptive aggressive behaviour etc. - We are able to provide the primary cause of the claim. Please see table 3 in the attached.

What of these have been classified of causing no harm/minor/moderate/major harm/life threatening harm/death? - We do not categorise claims in this manner on the Claims Management System.

What were the claimant demographics? For example, age, gender, and ethnicity – We can provide the age range. Please see table 4 of the attached.

Which have been shared/discussed with the patient and/or family? – It is not clear what is being requested here, however we would be unable to provide confidential information shared and discussed with patients. Please see our reasoning below in respect of our data protection considerations.

Which of these claims have been settled, and which are not settled? – Please see table 5 of the attached for the number of claims that have settled with damages paid.

What were the most common reasons for lost claims? – It is not clear what is being requested. We would not be able to provide confidential information shared and discussed with patients. Please see our reasoning below in respect of our data protection considerations.

What were the most common reasons for settled claims? – It is not clear what is being requested. We would not be able to provide confidential information shared and discussed with patients. Please see our reasoning below in respect of our data protection considerations.

What were the financial costs related to settled, lost, and defended claims? This includes costs incurred and damages paid - Please see table 5 of the attached for the number of claims that have settled with damages paid.

What was the grade/job title of the professional whom the claim was raised against? – We are unable to provide this information due to data protection grounds. Please see our reasoning below in respect of our data protection considerations.

We have suppressed low figures and we are unable to provide information that could potentially identify individuals as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3)(a)(i) of the FOI Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information, and any disclosure would therefore contravene the first data protection principle.

In some instances the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals identities', as disclosure could potentially cause damage

and/or distress to those involved. Where we are in the territory of such small numbers in the attached, we have used a '#' symbol in the relevant field. You should still be able to see aggregate/total details for higher level fields containing this data.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Tinku Mitra](#), Head of Corporate and Information Governance for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF
