**Telephone:** 020 7811 2700

April 2021  
FOI\_5015

The following information was requested on 6 April 2021:

*I am looking to find out information about cases involving allegations of negligence in respect of cervical cancer/screening. I would like the following information: number of cases brought per year for the last three years, number of cases settled per year for the last three years, damages paid out per year for the last three years, costs (Claimant and Defendant) per year for the last three years, number of cases settled per year for the last three years where the case involves someone passing away.*

## Our Response

For details of the claims data that we publish please see the following links:

Annual report statistics: - <https://resolution.nhs.uk/resources/annual-report-statistics/>

Factsheet 5: - [Factsheet 5 - trust and authority claims data 2019/20 - NHS Resolution](#)

<https://resolution.nhs.uk/resources/this-factsheet-provides-information-about-trust-and-health-authority-claims-handled-by-nhs-resolution-in-2018-19/>

Although NHS Resolution may hold some information relating to claims such as cervical cancer/screening claims, due to the way claims are recorded on our claims database, we will not be able to identify such specific cases. It might be helpful to explain that when claims are notified to NHS Resolution they are categorised against pre-defined cause, injury and speciality [codes](#), unfortunately cervical cancer/screening is not one of these. Therefore, while there may be information held in our records, we are not readily able to identify the relevant files by searching the database. To do so would involve a review of all cases to identify which ones relate to claims involving cervical cancer/screening. NHS Resolution receives thousands of claims each year.

Therefore, we estimate that the cost of complying with the request in its entirety would exceed the 'appropriate limit'. Section 12(1) of the Freedom of Information Act 2000 is a provision which allows a public authority to refuse to comply with a request for information where the cost of compliance is estimated to exceed a set limit (known as the 'appropriate limit'). The 'appropriate

limit' for NHS Resolution is £450. This equates to 18 hours of work at the rate of £25 per hour set out in the 'Fees Regulations'.

We estimate that it would take on average 10 minutes to locate, retrieve and extract the requested information from an individual file. It may therefore be the case that we would be able to examine only 108 files within 18 hours.

In addition, given the complexity of clinical negligence claims and their litigation, it is possible for a single electronic or paper-based file to contain hundreds of documents in a variety of formats.

Please also note even if we were able to carry out a review of 108 random files we may not be able to provide you with the level of detail you require owing to Data Protection grounds. We would need to suppress low numbers or any information that could possibly lead to the identification of claimants, patients or individuals where disclosure would breach the General Data Protection Regulation.

We do have the following injury codes: Cancer  
Advanced Stage Cancer

We could provide you with high level data relating to the above injuries and it could cover number of claims received in the relevant financial years; a breakdown by specialty; a breakdown by primary cause; numbers settled with associated costs; numbers with no damages paid and numbers currently open. Please let us know if you would be interested in this data. Please also let us know which financial year you would like the data to cover.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced a number of [reports](#) from analysing our claims data which has been shared following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

**This concludes our response to your request.**

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Tinku Mitra](#), Head of Corporate and Information Governance for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House  
Water Lane

Wilmslow  
Cheshire  
SK9 5AF
