**Telephone:** 020 7811 2700

March 2023  
FOI\_5673

The following information was requested on 10 November 2022:

*How many legal cases have been taken against the NHS by patients, or families of patients in the last two years (September 2020 - August 2022) by month and NHS Trust. If available, please include categories of reason for the legal action. Please also provide the outcome of the cases, where the case has been decided.*

*A similar FOI request was made a few years back so if could have the information in the same format that would be great.*

<https://qbr01.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.whatdotheyknow.com%2Frequest%2Flegal%20cases%20against%20the%20nhs%23comment-107473&data=05%7C01%7Cnhsr.foi%40nhs.net%7C71fb00bc4f824d0f3b8d08dac3d6bc48%7C37c354b285b047f5b22207b48d774ee3%7C0%7C1%7C638037624295418318%7CUnknown%7CTWFpbGZsb3d8eyJWIjojMC4wLjAwMDAiLCJQIjojV2luMzliLCJBTil6lk1haWwiLCJXVCi6Mn0%3D%7C2000%7C%7C%7C&sdata=FaRmQGs6eVS7ohEX%2BUtffaPSoBddYkGmWlzfZSjMBo%3D&reserved=0>

## Our Response

Thank you for your request for information. Please find attached the requested information. Please note we only hold information for England.

We note the request is for an update on FOI\_5228. However, on more careful consideration, we have interpreted your request to relate to Clinical Claims.

In our previous response to FOI\_5228 the data disclosed covered all schemes including non-clinical claims. Since publishing FOI\_5228 we have also updated our method of data extraction. As such, in response to this request (5673) we have provided data for clinical claims, applying the new method of extraction, for years 2019/20 to 2021/22. This means there will be a difference in the data provided to request 5228. We suggest the data in this request (5673) takes precedence.

We are able to provide information for financial years. We have not broken down the information into individual years or down to months due to data protection grounds. Please see our low number refusal below.

The information for the financial year 2022/23 is currently unavailable and will be made available from July 2023 following data verification and an external audit.

Please note claims notified/received and open are not guaranteed to be settled in the same year and can take many years to be concluded. Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of clinical negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle.

**Table 1 shows** – Number and Cost of Clinical Claims Closed between 2019/20 - 2021/22 with a damages paid (includes the damages paid to date for any claims settled on a periodical payment order basis)

The information disclosed includes damages paid out in the relevant period under Periodical payment orders (PPO) previously agreed on cases, which may have been resolved several years ago. It does not include sums, which have been committed on settlements in the relevant period under a PPO, which may not be paid out until future years. PPOs are an agreement between the parties, to pay an initial lump sum and regular future payments covering the injured party's ongoing care needs, usually for life i.e. a percentage of the full value of the claim is paid at the point of settlement with the balance paid at regular intervals over subsequent years.

Please also note that the data shows variation in damages and costs paid. This is a reflection of the nature of individual claims received by NHS Resolution, which can vary significantly. As such, these fluctuations cannot be interpreted as trends.

**Table 2 shows** - Number of Clinical Claims Closed between 2019/20-2021/22 without damages paid.

**Table 3 shows** – Number and Cost of Clinical Claims Closed between 2019/20-2021/22 with damages paid, broken down by primary cause with at least 5 claims, for each trust. (Includes the damages paid to date for any claims settled on a periodical payment order basis).

**NB:** Please note the grand total will not match the grand total provided in Table 1 as those primary causes (per trust) with less than 5 claims have been excluded.

Please note Claims recorded against the Department of Health and Social Care (showing as Department of Health) are liabilities arising from defunct NHS organisations, which transferred to the Secretary of State for Health and Social Care when those organisations were abolished. These also include NHS clinical negligence claims made against current and former GP members of medical defence organisations

(currently MDDUS and MPS only) in respect of liabilities incurred before 1 April 2019. These are managed under ELSGP. Please see our website for details ([Existing Liabilities Scheme for General Practice - NHS Resolution](#)).

### **The NHS Resolution Directions 2013 and The NHS Resolution (Amendment)**

**Direction 2013** directed NHS Resolution to handle and pay certain clinical claims where liability has transferred to the Secretary of State for Health and Social Care from abolished Primary Care Trusts (PCTs) and Strategic Health Authorities (SHAs). NHS Resolution was also directed to handle and pay claims against Public Health England. This “Scheme” is used to identify such claims and includes the majority of incidents which occurred prior to 01.04.13 for services provided by PCTs, some independent providers and SHAs.

**Table 4 shows** – Number and Cost of Clinical Claims Closed between 2020/21-2021/22 with damages paid, broken down by primary injuries with at least 5 claims, for each trust. (includes the damages paid to date for any claims settled on a periodical payment order basis).

Please note the grand total will not match the grand total provided in Table 1 as those primary injuries (per trust) with less than 5 claims have been excluded.

### **Low Numbers**

We have also provided the primary cause and primary injury associated with the claims where there are 5 or more claims per Trust.

We have suppressed low figures as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A)(a) of the Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information, and any disclosure would therefore contravene the first data protection principle.

In some instances the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects’ medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals identities’, as disclosure could potentially cause damage and/or distress to those involved. Where we are in the territory of such small numbers in the attached, we have used a ‘#’ symbol in the relevant field. You should still be able to see aggregate/total details for higher level fields containing this data.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

**This concludes our response to your request.**

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Tinku Mitra](#), Deputy Director of Corporate and Information Governance, Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House  
Water Lane  
Wilmslow  
Cheshire  
SK9 5AF
