Our Response

Please find attached the requested information.

Please note that the data that falls within the current financial year 2022/23 is currently unavailable as it is incomplete (the financial year has not ended) and is subject to an external audit. This information is available on request from July 2023.

We have interpreted your request as seeking information on employer's liability cases reported under our Liabilities to Third Parties Scheme (LTPS) and under the categories you have specified and all data in this response is provided within these parameters. Please note a claim can be made due to more than one cause. Therefore, the tables provided within this response are based on concatenated causes, table 1 for example can account for a claim more than once e.g. a single claim can be both "Faulty Equipment" and "Injuries/illness caused by inadequate PPE".

Due to the above some of the totals provided will not match, i.e. the totals of tables 3 to 7 will not match table 15.

Table 1 shows:- Number of Claims and Incidents received between the financial years 2017/18 - 2021/22 which relates to personal injury claims filed by NHS staff broken down by specified causes referred to your request.

Please note claims notified/received and open are not guaranteed to be settled in the same year and can take many years to be concluded. Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of clinical negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle.

Table 2 shows:- Broken down by Trust and specified causes in your request, number of Claims and Incidents received between the financial years 2017/18 - 2021/22 which relates to personal injury claims filed by NHS staff.

Table 3 shows:- Cost of Claims closed between the financial years 2017/18-2021/22 which relates to personal injury claims filed by NHS staff with a damages payment relating to Injuries/illnesses caused by inadequate PPE.

Low figures

We have not provided the information for low figures involved as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A)(a) of the FOI Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information, and any disclosure would therefore contravene the first data protection principle.

In some instances the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to

protect those individuals identities', as disclosure could potentially cause damage and/or distress to those involved.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced a number of [reports](#) from analysing our claims data which has been shared following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Tinku Mitra](#), Deputy Director of Corporate and Information Governance, Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:
