Telephone: 020 7811 2700

July 2025
FOI_7247

The following information was requested on 2 June 2025 and clarified on 3 June 2025:

[On 2 June 2025 you requested]

Further to our previous request regarding compensation claims handled by NHS Trusts in the North East and Cumbria, [FOI 7022 Claims-data-for-specified-Trusts.doc.pdf](#) we would like to find out more about compensation claims handled by all NHS Trusts on a national basis, but have significantly reduced the information we're asking for, in the hope it will remain within the costs and time limits of the Act.

If my questions can be revised in order to better achieve a full disclosure, I would be grateful for any advice you could give in that respect. If it would also help reduce time by adjusting the time period, please let me know and I can specify.

Please provide answers to the following questions in an Excel workbook:

- 1. How many compensation claims have been settled by the Trust over the past six years (2019-2025) – please breakdown by year.*
- 2. For each settled claim, please provide:*

Total amount paid in settlement

Number of claims closed with nil damages paid

Number of claims closed with a damages payment and associated costs

Breakdown by incident date (per financial year)

Breakdown by primary cause

Breakdown by primary injury

- 3. Over the same period please provide the number of fatalities claims logged for each Trust.*
- 4. How much has the Trust spent in legal fees associated with compensation costs over that period. Please break down by year and by legal costs awarded to claimants vs. costs incurred in representing the Trust.*

[On 3 June 2025 we sought clarification]

Thank you for your request. Before we can respond I would like to clarify what we are able to provide.

We can provide data in financial years up to 2023/24 – the data for 2024/25 will be available on request around August.

Are you interested in something similar to this [FOI 7022 Claims-data-for-specified-Trusts.doc.pdf](#) but for all Trusts? As many Trusts will have less than 5 claims we will need to anonymise all of the low numbers (claims less than 5) for data protection reasons. It would be

more helpful to provide you with the Trusts with **5 or more claims**. Are you interested in this information?

In Q2, do you mean for each trust (and not for each claim)?

We are unable to disclose any information about individual claim as that would lead to the breach of Data Protection requirements.

Your request will be put on hold until we receive the clarification. We look forward to hearing from you.

[On 3 June 2025 you replied with]

Thanks for your additional questions - I've answered them in red below.

We can provide data in financial years up to 2023/24 – the data for 2024/25 will be available on request around August. **That's great, just up to 23/24 is fine, thank you.**

Are you interested in something similar to this [FOI 7022 Claims-data-for-specified-Trusts.doc.pdf](#) but for all Trusts? As many Trusts will have less than 5 claims we will need to anonymise all of the low numbers (claims less than 5) for data protection reasons. It would be more helpful to provide you with the Trusts with **5 or more claims**. Are you interested in this information? **Yes please.**

In Q2, do you mean for each trust (and not for each claim)? **Yes I do - so sorry about that.**

We are unable to disclose any information about individual claim as that would lead to the breach of Data Protection requirements. **I understand.**

Our Response

Please find attached the requested information we are able to provide.

NB: We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to <https://resolution.nhs.uk/resources/understanding-nhs-resolution-data>.

Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of clinical negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle and close. They are not guaranteed to be settled and closed in the same year. As such, there will be a time gap between incident and claim closure.

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case

has been closed (as nil damages payment), challenged, reopened and closed again at conclusion.

The data shows variation in numbers of cases received, closed per year and costs attributed to those claims. This is a reflection of the nature of individual claims received and resolved by NHS Resolution, which can vary significantly. As such, these fluctuations cannot be interpreted as trends.

We have provided data on [Clinical Negligence Scheme for Trusts \(CNST\)](#), which covers clinical negligence claims for incidents occurring on or after 1 April 1995.

Please note: these tables should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Please find attached the following tables:

Table 1 shows: - Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment, broken down by NHS Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 2 shows: - Number and Cost of CNST Claims Closed between financial years '2019/20' and '2023/24' for NHS Trusts with **NIL** damages paid, broken down by NHS Trust.

Table 3 shows: - Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment, broken down by Primary Injury. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 4 shows: - Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment, broken down by Primary Cause. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 5 shows: - Number and Cost of CNST Claims Closed between financial years '2019/20' and '2023/24' for NHS Trusts with **NIL** damages paid, broken down by Primary Injury.

Table 6 shows: - Number and Cost of CNST Claims Closed between financial years '2019/20' and '2023/24' for NHS Trusts with **NIL** damages paid, broken down by Primary Cause.

Table 7 shows: - Number of CNST Claims and Incidents received between financial years '2019/20' and '2023/24' for NHS Trusts where the Injury at any level is '**Fatality**', broken down by NHS Trust.

Please note: the CNST scheme provides discretionary funding to support individual Trusts at inquests and to investigate any associated entitlement to compensation. Trusts will also make their own arrangements in relation to inquests. As such the volume of fatality cases will differ between Trusts depending on whether discretionary support from NHS Resolution has been requested and this data should not be used for comparison purposes.

Table 8 shows: - Number and Cost of CNST Claims Closed between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment where any injury is '**Fatality**', broken down by NHS Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

Table 9 shows: - Number and Cost of CNST Claims Closed between financial years '2019/20' and '2023/24' for NHS Trusts with **NIL** damages where any injury is '**Fatality**', broken down by NHS Trust.

PPOs

The information disclosed includes damages and costs paid up to the end of the settlement year (in Periodical payment order (PPO) cases) and up to the end of the closure year in non-PPO cases.

PPOs are an agreement between the parties, to pay an initial lump sum and regular future payments (PPO damages) related to the injured party's ongoing needs, usually care for life i.e., a percentage of the full value of the claim is paid at the point of settlement (lump sum damages) with the balance paid at regular intervals over subsequent years. The information disclosed includes lump sum damages, costs and any PPO damages paid up to the end of the year of settlement. It does not include PPO damages, which have been committed to but due to be paid after the settlement year.

Low Numbers

Please note we have suppressed low figures as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A) (a) of the Freedom of Information Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation.

In some instances, the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced a number of [reports](#) from analysing our claims data which has been shared following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Joanne Appleby](#), Deputy Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF

TABLE OF CONTENTS

NB: Number of claims fewer than 5 (and any associated values, within the same row) are masked with a "#" (in accordance with Data Protection guidelines). Accordingly, some total values may also be approximated to prevent masked values to be deduced through reverse calculation.

Table 1: Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment, broken down by NHS Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 2: Number and Cost of CNST Claims Closed between financial years '2019/20' and '2023/24' for NHS Trusts with NIL damages paid, broken down by NHS Trust.

Table 3: Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment, broken down by Primary Injury. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 4: Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment, broken down by Primary Cause. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 5: Number and Cost of CNST Claims Closed between financial years '2019/20' and '2023/24' for NHS Trusts with NIL damages paid, broken down by Primary Injury.

Table 6: Number and Cost of CNST Claims Closed between financial years '2019/20' and '2023/24' for NHS Trusts with NIL damages paid, broken down by Primary Cause.

TABLE OF CONTENTS

NB: Number of claims fewer than 5 (and any associated values, within the same row) are masked with a "#" (in accordance with Data Protection guidelines). Accordingly, some total values may also be approximated to prevent masked values to be deduced through reverse calculation.

Table 7: Number of CNST Claims and Incidents received between financial years '2019/20' and '2023/24' for NHS Trusts where the Injury at any level is 'Fatality', broken down by NHS Trust.

Table 8: Number and Cost of CNST Claims Closed between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment where any injury is 'Fatality', broken down by NHS Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

Table 9: Number and Cost of CNST Claims Closed between financial years '2019/20' and '2023/24' for NHS Trusts with NIL damages where any injury is 'Fatality', broken down by NHS Trust.

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 1: Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment, broken down by NHS Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 1: Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment, broken down by NHS Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Closed/Settled Claim_Outcome scheme	Y Damages Paid CNST			
Year of Closure (Settlement Year for PPOs)				
--NHS Trust	No. of Claims	Damages Paid	NHS Legal Costs Paid	Claimant Costs Paid

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 1: Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment, broken down by NHS Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 1: Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment, broken down by NHS Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

ClosedSettled Claim_Outcome scheme	Y Damages Paid CNST

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 1: Number and Cost of CNST Claims Closed (or settled with a periodical payment order) between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment, broken down by NHS Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Data correct as at: The end of every financial year

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 7: Number of CNST Claims and Incidents received between financial years '2019/20' and '2023/24' for NHS Trusts where the Injury at any level is 'Fatality', broken down by NHS Trust.

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 7: Number of CNST Claims and Incidents received between financial years '2019/20' and '2023/24' for NHS Trusts where the Injury at any level is 'Fatality', broken down by NHS Trust.

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 8: Number and Cost of CNST Claims Closed between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment where any injury is 'Fatality', broken down by NHS Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 8: Number and Cost of CNST Claims Closed between financial years '2019/20' and '2023/24' for NHS Trusts with a damages payment where any injury is 'Fatality', broken down by NHS Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 9: Number and Cost of CNST Claims Closed between financial years '2019/20' and '2023/24' for NHS Trusts with NIL damages where any injury is 'Fatality', broken down by NHS Trust.
